Re : **Progress Report on St. Peters Church construction**

Dear all,

I am happy to share with you that there is good progress on St. Peters Church construction where inside plaster, white washing and the floor were completed and the pulpit is almost complete.

Builders will now be working on the outside walls and fitting of windows and doors to finalise everything. It was good to also learn that the Mbedza parishioners have already started using the church building for Sunday prayers. I will share congregation pictures in the future when I will be able to visit them on a Sunday.

Picture of the left side of the church as we stand facing the alter, showing inside walls that have been whitewashed and the completed floor.

Picture of the left wing of the church showing whitewashed walls and floor.

Picture of the pulpit, tiles covered on steps.

Gratitude to the entire family of Hope for Malawi Foundation for considering support to Malawi. May this serve as a reminder also on outstanding requests from St Mathews Church which includes Chairs, Pictures, Water connection and repainting of the walls.

May God continue to bless you for your generosity.

Yours Sincerely

A handwritten signature in black ink, appearing to read 'A. Chiyenda', enclosed within a thin black rectangular border.

Amos Ezekiel Chiyenda.
